Professional: Remote Pair-Programming, Teamwork, Mentoring

EXPERIENCE

MICROVERSE

Remote

Full-Stack Web Development Student & Mentor

February 2022 – Present

Mastered intermediate and advanced topics in full-stack development (including React, Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair programming.

[Prestine Cars](#) — This is a React frontend application for renting cars. The application allows users to sign up and select a city they want to visit, and then rent a car from the list of available cars in that particular city.

- Built with: (Ruby, Rails, React, Redux)

[Budget App](#) — This is a mobile web application where you can manage your budget, you have a list of transactions associated with a category so that you can see how much money you spent and on what.

- Built with: (Ruby, Rails)

[Travelers](#) — A web application for a company that provides commercial and scientific space travel services. The application allows users to book rockets and join selected space missions.

Mentor (Volunteer)

- Mentored junior web developers by providing technical support through code reviews.
- Provided advice and tips on how to maintain longevity and motivation in the program.

Besoft

Kigali, Rwanda

Developer

September 2020 – January 2022

- Worked on the development of the RSSB website ([rssb.rw](#)), as a front-end developer, my work consisted of Translating the design team's UX wireframes and mockups into responsive and interactive features using HTML/CSS and JavaScript.
- Worked on OrionSMS ([sms.besoft.rw](#)), the platform for sending bulk SMS. My work consisted of developing its graphical user interface as well as making it mobile responsive.

SOMA

Kigali, Rwanda

Intern

May 2020 – August 2020

- Worked on **Somafri.com**, a web app platform for teaching African languages. My work included documenting, debugging, and testing the application features using the Jest framework.

EDUCATION

MICROVERSE

February 2022 – Present

Remote Full Stack Web Development Program, Full Time

- Mastering algorithms & data structures, and full-stack development while simultaneously developing projects with JavaScript, React, Redux, Postgres, Ruby, and Ruby on Rails.
- Developing skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSITY OF RWANDA

September 2015 – November 2019

Bachelor of Science(Hons) in Computer Engineering
